### DETAILED ACTION

In response to the amendment filed on 5/7/2004, all the amendments to the claims have been entered and the action follows:

#### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Art Unit: 2623

3. Claims 3, 5-8, 14, 16-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Birang (US 5708506).

With respect to claims 3, 5-8, 14, 16-19, the rejections are respectfully maintained and incorporated by references as set forth in the prior office action paper number 10.

Also, regarding the newly added limitation of "by an optical imaging unit" in claim 5, Birang further discloses the photo-detectors figure 7 84, 86 which is read as the optical imaging unit (see col. 9, lines 63-65) as claimed.

***Allowable Subject Matter***

4. Claims 9-11 and 20-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Per the applicants arguments filled on 5/7/2004, page 16, lines 8-12, regarding claim 9, the rejection to the claims 9-11 and 20-22 are withdrawn and therefore, claim subject matter be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

5. Applicant's arguments filed 5/7/2004 with respect to claims 3, 5-8 and 14, and 16-19 have been fully considered but they are not persuasive. Applicant argues that the reference fails to disclose "imaging said illuminated areas ... and obtaining an image of said polishing pad area surface;" (see page 14 paragraph 2). Examiner disagrees with the applicant, and would like to note that in col. 9, lines 63-65, a two dimensional CCD array, as suggested in the reference to be use for the light detectors 84 and 86, as claimed in the independent claims 5 and 16.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
